

## STAYSAIL RV PARK CLOSING OCTOBER 15, 2017

The Staysail RV Park will permanently close this fall to make room for Windjammer Park improvements.

Last year, the City of Oak Harbor worked with the community to create a plan for updating Windjammer Park in coordination with a Community Advisory Group. The City found that modernizing the RV Park would require the City to greatly reduce the number of RV stalls provided. City Council and the Community Advisory Group recommended removing the RV Park to make room for a gateway pavilion, restrooms, basketball courts, a large kitchen, and more.

*Staysail RV Park will close this fall.*

### Windjammer Park improvements on the way!

## A look at the new Windjammer Park

The project team has been busy working to incorporate community feedback and preferences into the updated park design.

The western kitchen (shown here) will have space for two small gatherings or one large gathering. An additional, smaller kitchen will be located near the Clean Water Facility.

## Windjammer Park timeline

### DEC 2015 - JUNE 2016

- Windjammer Park Integration Plan**
- City Council adopts Plan in June 2016
  - 5 Community Advisory Group meetings
